# Need PEP?

If your engine is feeling run down, Aderco Chemical Products Inc. may have the solution.

Aderco has introduced a reformulated Power Economy Performance (PEP) pill across Canada to help drivers cope with increased gas prices and vehicle maintenance costs.

The pill is an easy to use, clean, solid gas additive designed to maintain an engine's performance by cleaning its fuel intake systems and improving combustion.

It's on sale at Canadian Tire, Wal-Mart and Home Hardware retail stores.
